

MY RESTAURANT DIGITAL MENU

By Quasland Media Group Ltd

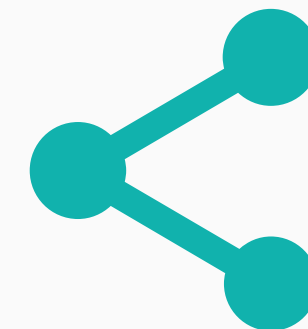

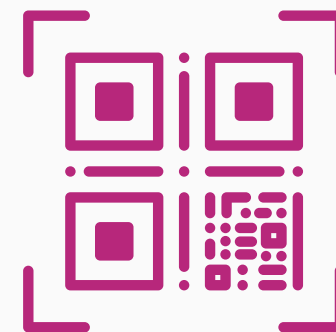

About My Restaurant Digital Menus

My Restaurant Digital menu replaces traditional, printed menus and provides customers with an improved, contactless, dining experience

Easy to Access

My Restaurant Digital menu can be easily accessed via the use of **QR Codes** or **Web Link** sharing on social media and instant messengers such as **Whats app**.

Features

- Add photos of food & drinks
- Real time updates to menus
- Analytics & Retargeting
- Online Ordering
- Point of Sale Management

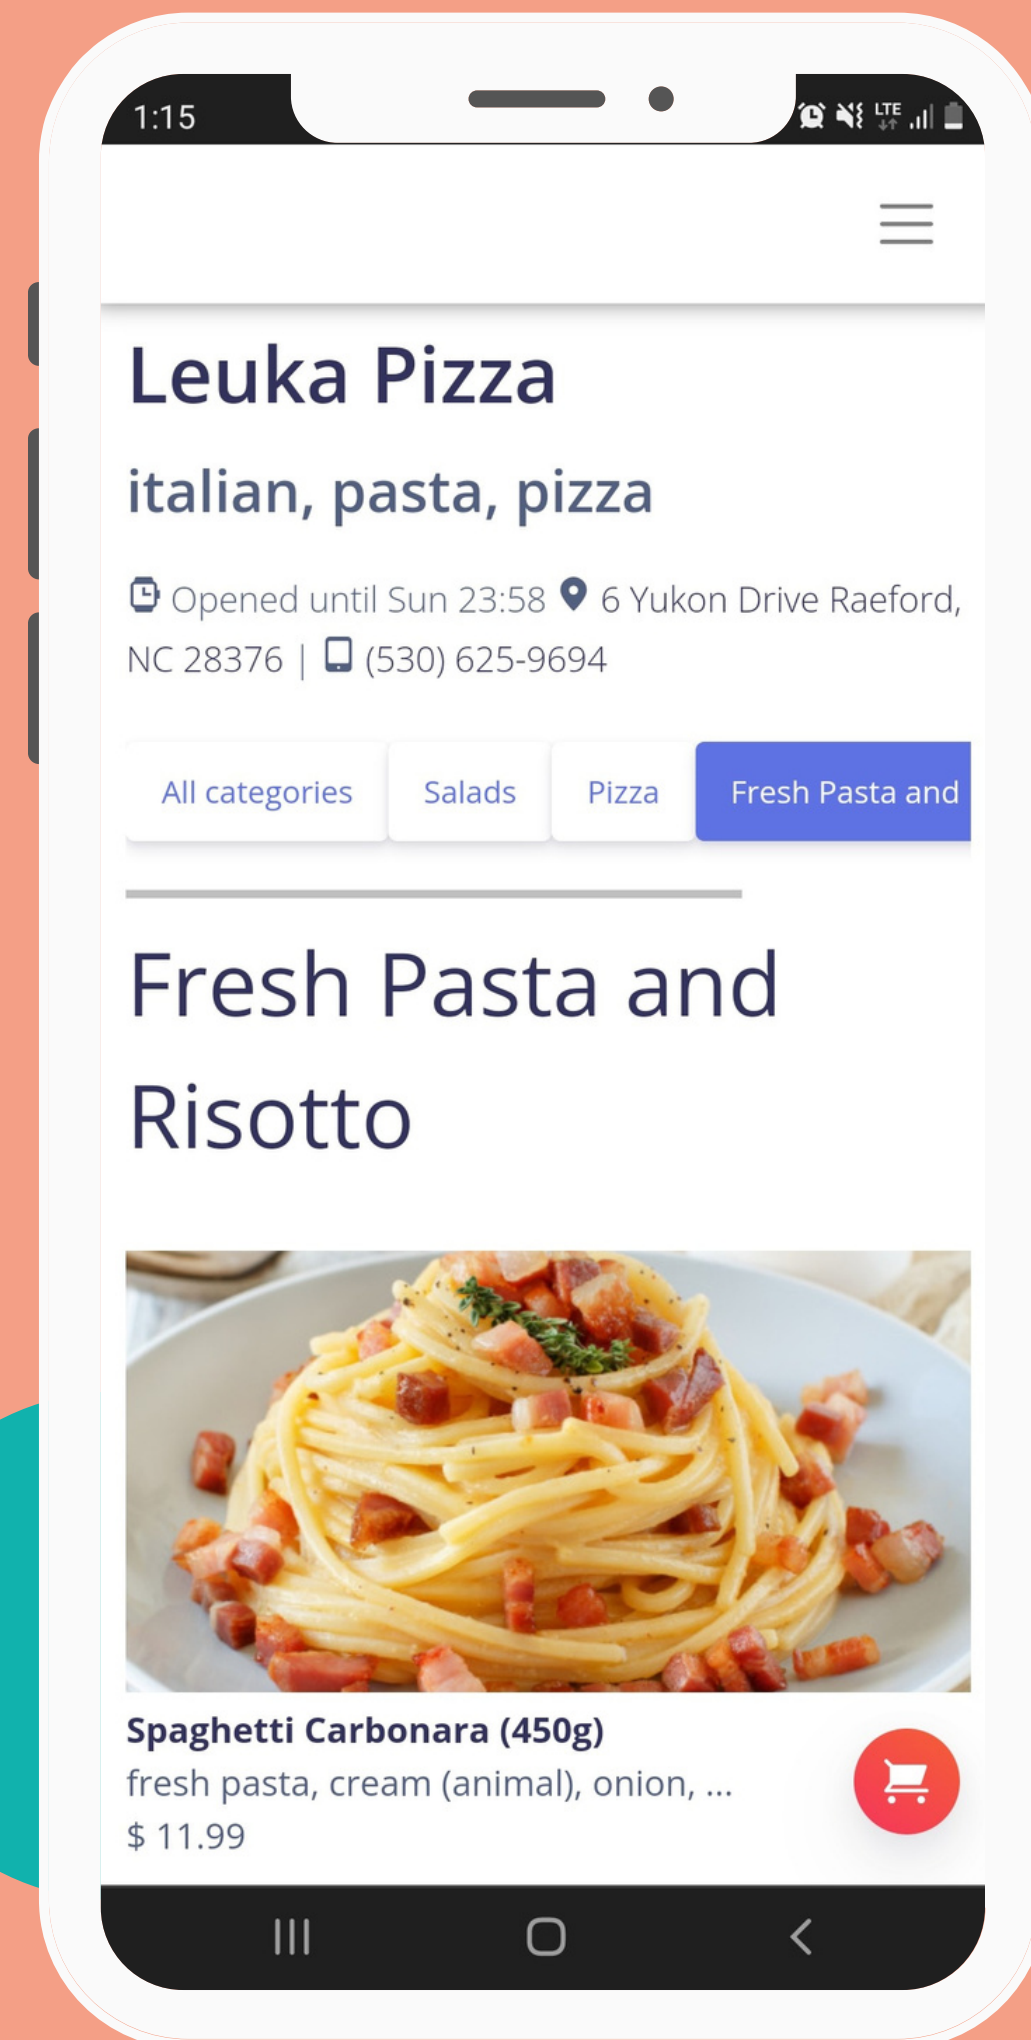

Visuals

My Restaurant Digital Menu supports photos & descriptions of items on your menu, giving customers the opportunity to make a more informed decision before placing their orders.

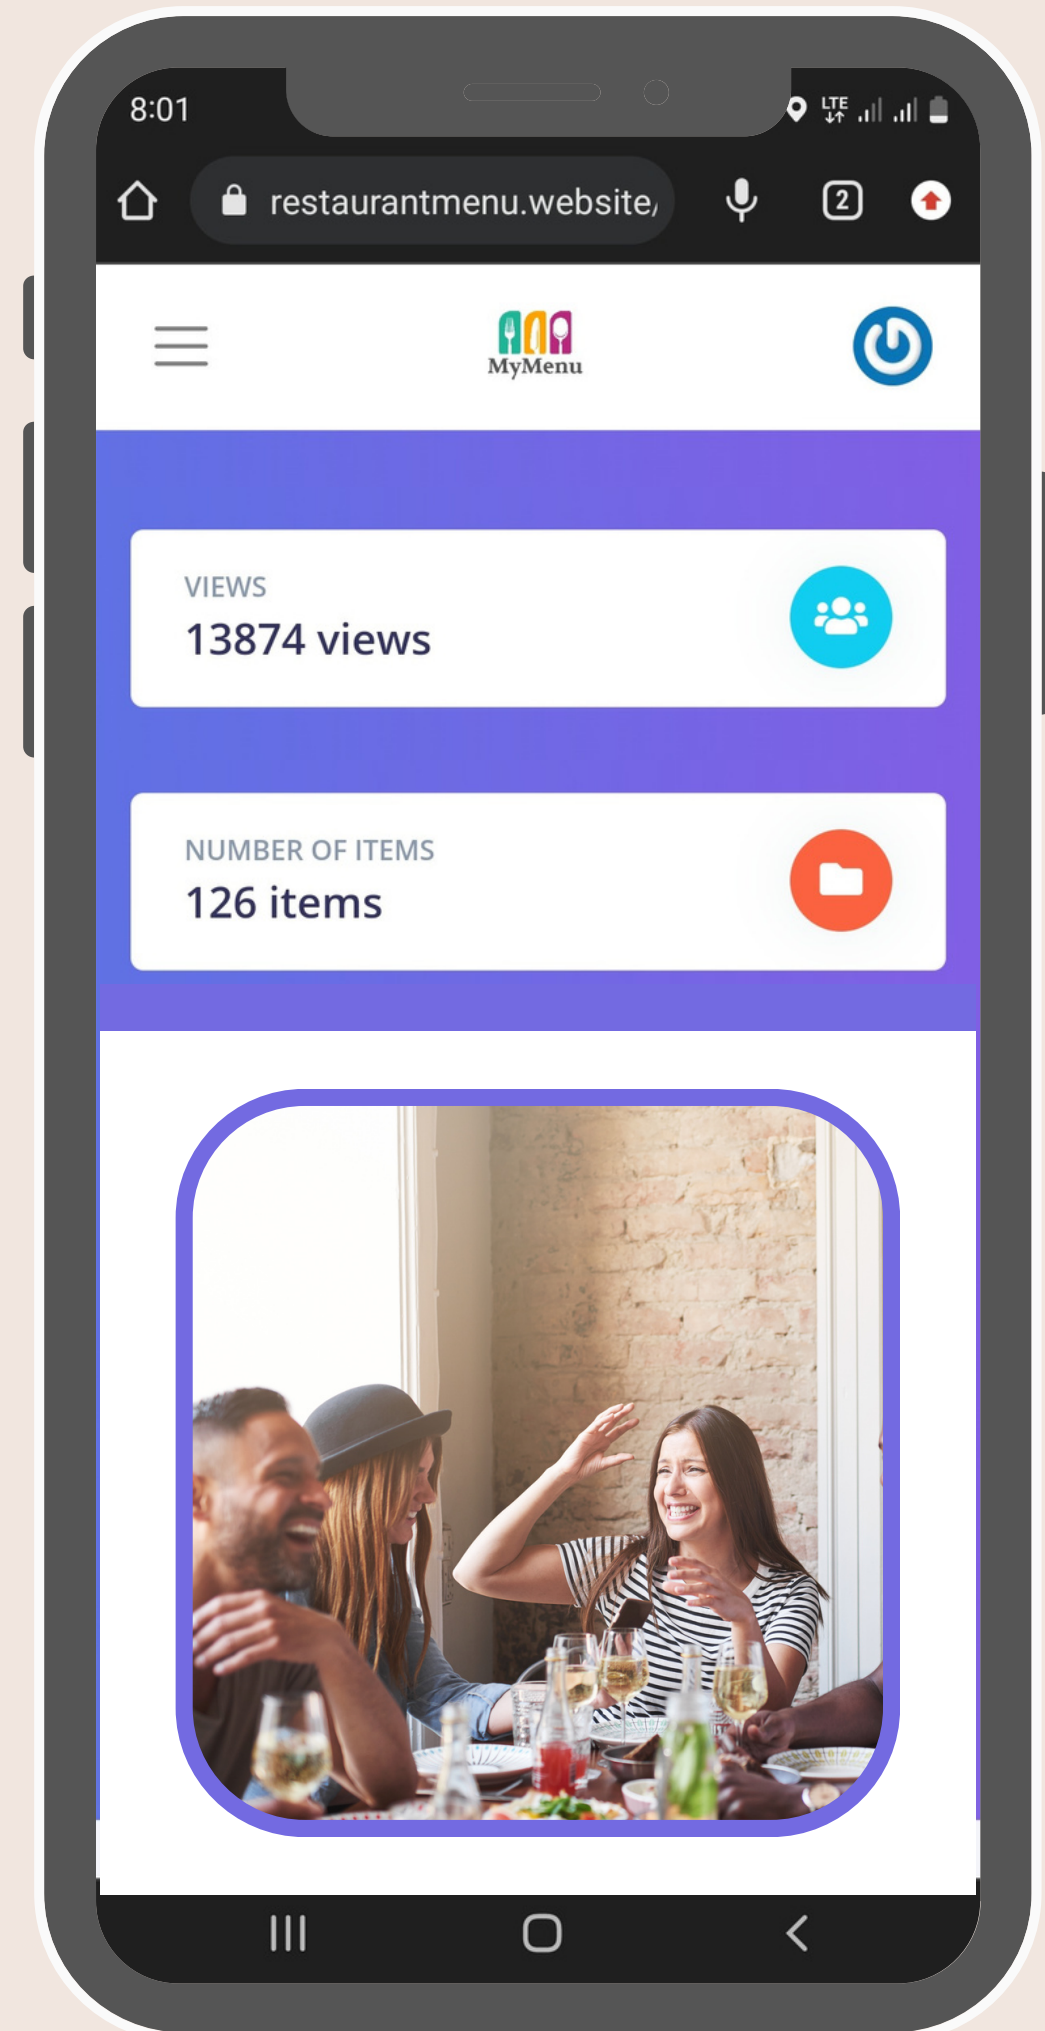

Real Time Updates

Changes to prices, availability of items and options can be made in realtime, quickly and easily. This gives restaurateurs the flexibility of managing these dynamics.

Analytics & Retargeting

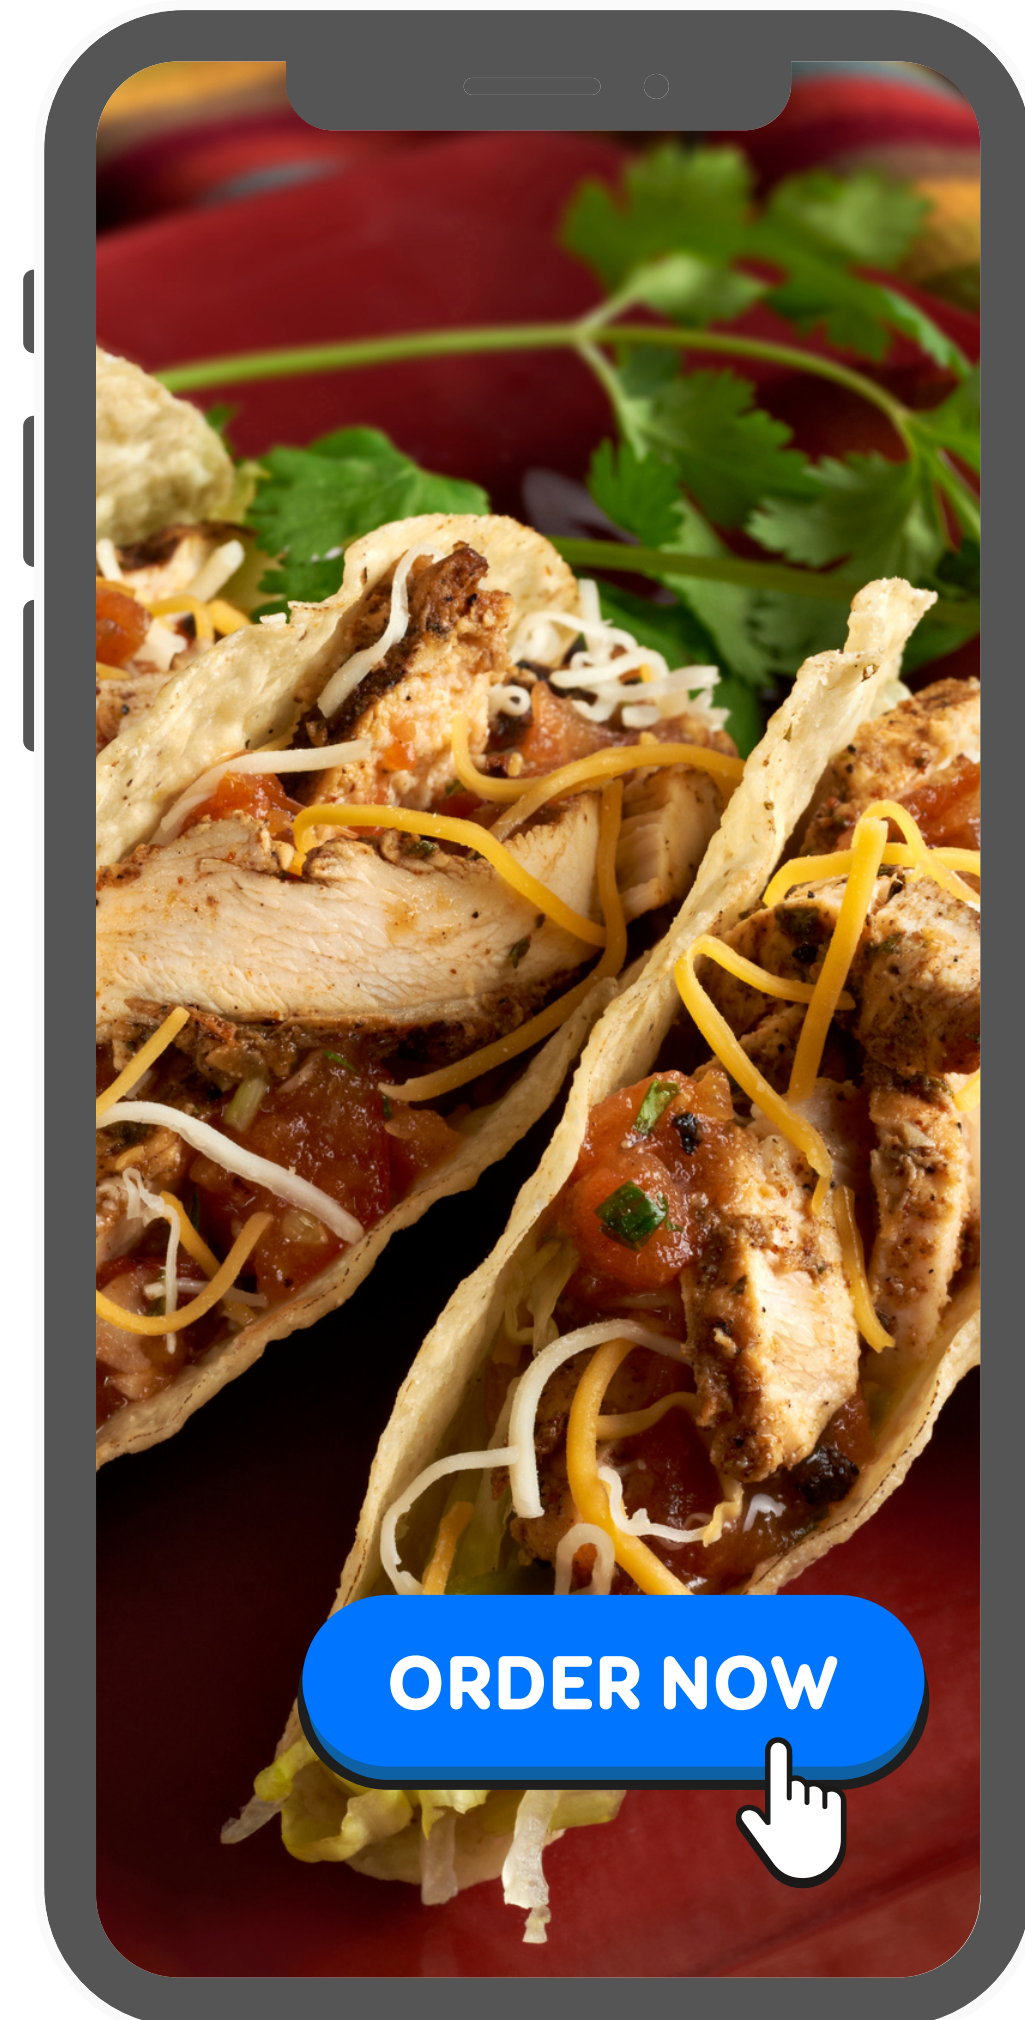

Monitor digital menu traffic & Set up retargeting Ads tailored toward persons who would have visited your restaurants & interacted with your digital menu, either online or in person.

Online Ordering

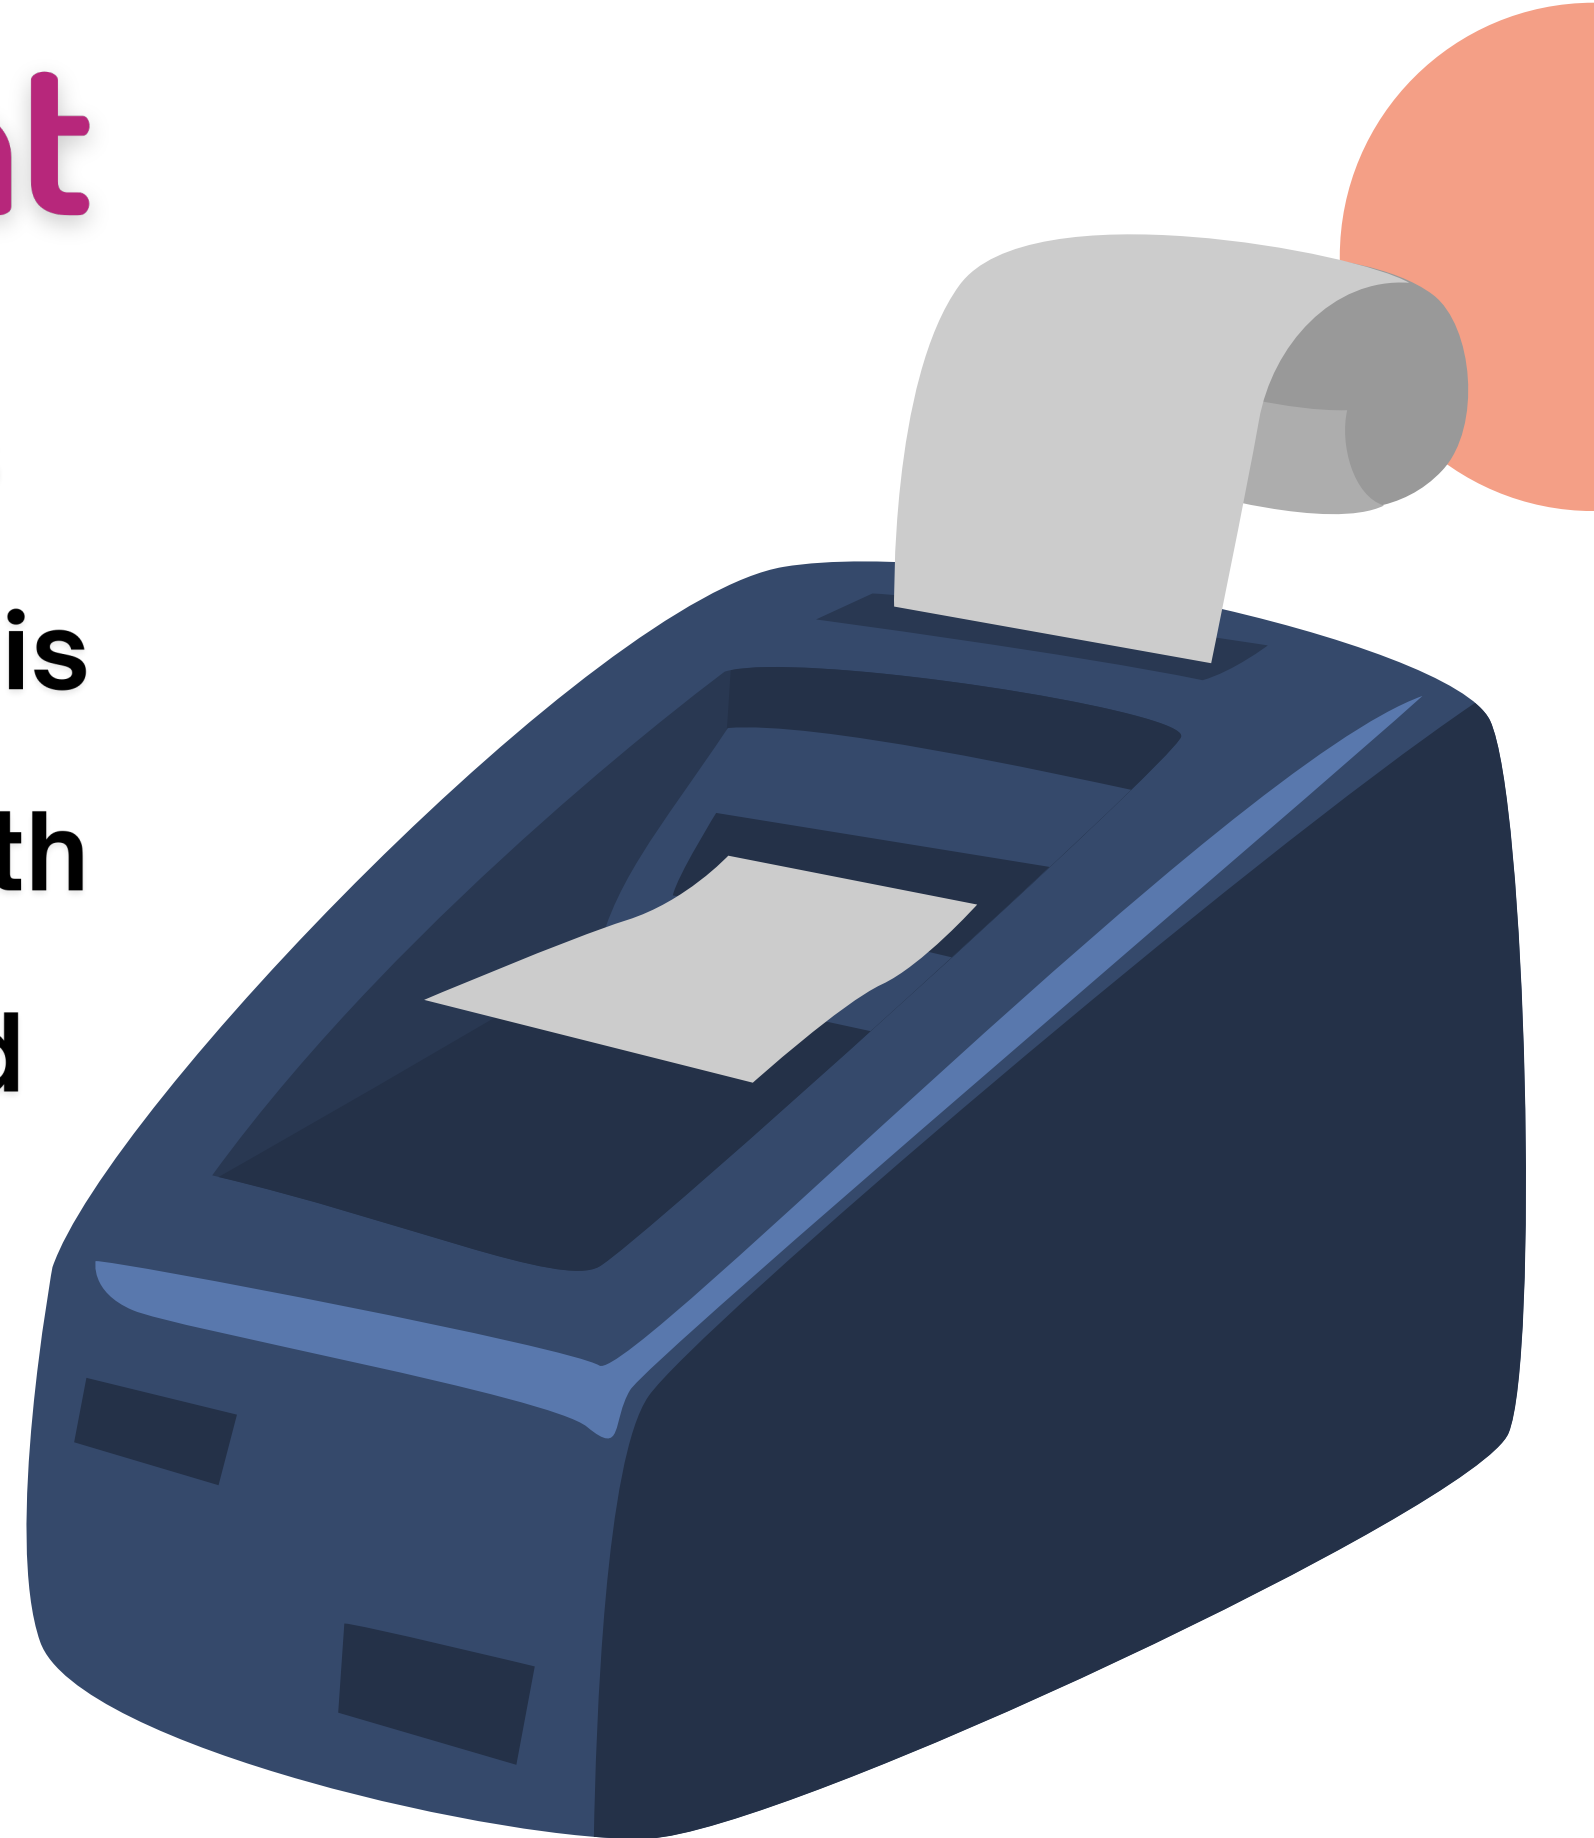

After browsing the menu customers can place and track orders.

Customers can also and include notes. example "No Ketchup on Burger"

Point of Sale Management

Manage sales, inventory, Kitchen orders & restaurant seating all in one place. This robust system integrates seamlessly with the digital menu and eliminates the need for multiple systems to do so.
